About Amphora

Amphora[®] (L-lactic acid, citric acid and potassium bitartrate) is an investigational Multipurpose Vaginal pH Regulator (MVP-R[™]) designed to regulate vaginal pH within the normal range of 3.5 to 4.5, even in the presence of semen, which normally raises the vaginal pH to 7.0 to 8.0. This maintains an acidic environment that is inhospitable to sperm, as well as certain viral and bacterial pathogens associated with sexually transmitted infections, but is integral to the survival of healthy bacteria in the vagina.

About Evofem Biosciences, Inc.

Evofem Biosciences, Inc., (NASDAQ: EVFM) is a clinical-stage biopharmaceutical company committed to developing and commercializing innovative products to address unmet needs in women's sexual and reproductive health. Evofem Biosciences aims to advance the lives of women by developing innovative solutions, such as woman-controlled contraception and potential protection from certain sexually transmitted infections (STIs). The Company's lead Multipurpose Vaginal pH Regulator (MVP-R[™]) product candidate, Amphora[®], is in development for multiple potential indications: prevention of pregnancy, prevention of urogenital *Chlamydia trachomatis* infection (chlamydia) in women, and prevention of urogenital *Neisseria gonorrhoeae* infection (gonorrhea) in women. For more information regarding Evofem, please visit www.evofem.com.

Amphora® is a registered trademark and MVP-R™ is a trademark of Evofem Biosciences, Inc.
